[From our Extra of Yesterday.]

Arrival of the Steamer Pacific

WASHINGTON, Sept. 15.

Advices from Richmond state it is generally conceded that Slidell goes to France soon.

Gen. Floyd had an engagement with the Federals on the 10th, and routed them, killing 600 and wounding 100.

Things are generally quiet on the Potomac.

There is no recognition of the rebel flag in Spain, or other ports, notwithstanding the explanation made by the Spanish Minister to Secretary Seward, on Thursday. The reported proclamation of the Captain General occupies the attention of the State Department.

Subscriptions to the Federal national loan exceed nine millions of dollars.

The Spanish Minister called to assure the Secretary of State, that the reports from Charleston that the Captain General of Cuba has issued a proclamation recognizing the rebel flag, was untrue.

Two schooners were seized at New York on the 6th.

Owing to information received at the Post-office department, that the Hannibal and St. Joseph railroad was entirely unprotected from the rebels: that St. Joseph is in their hands, it has been ordered that the California mails be carried via Davenport to Council Bluffs. The department also received information that all officers and employees of the Overland Company are rebels.

WASHINGTON, Sept. 16.

On the 12th inst. the army made an advance on Elk Water, Va., with a force of 15,000 men, having driven back a detachment of 15th Indiana, 3d and 6th Ohio regiments. [?] A shell from one of Loomis' guns fired into the enemy's camp a distance of two miles killed ten and wounded four.

The 13th Indiana regiment had several skirmishes with superior numbers on the evening of the 12th and killed twelve—only a trifling loss on our side.

It was reported on the 17th that General Price with 17,000 men surrounded Lexington, Missouri, and sent a summons to Col. Mulligan to surrender. He refused, whereupon Gen. Price gave him till Monday morning at 4 o'clock to surrender, if he did not he would march on him under the black flag. No news since.

It is confidently thought in military quarters that Gen. Sturgis, federal, has reached Lexington from St. Joseph, and that Price will be cut off or forced to retreat.

The steamer Sunshine was seized by rebels at Glasgow, Missouri. The steamer Sioux was attacked at Glasgow, but escaped.

All the banks of New Orleans have suspended specie payment.

Treasury notes were all at par.

The gun-boat Canestoga captured the rebel steamers Steremon and Gazelle on Cumberland river on the 16th. One contained one hundred tons of iron.

Reliable news from Lexington to Saturday evening shows that there had been no fight up to that hour, though the Federal troops had been summoned to surrender by Price, whose army was 17,000 strong.

Gen. Pope was to reinforce Lexington on the 18th, with 6000 men.

The Union men in both houses of the Maryland Legislature refused to meet on the morning of the 19th.

The latest advices from Lexington, Missouri, on Monday afternoon say that Price sent word to Mulligan, demanding his surrender. Mulligan replied, "Go to h—l."

An attack was immediately made, opening with artillery and under its cover, making a sortie on the town, they were repulsed with heavy loss by Mulligan's forces, with little loss of the U. S. troops.

General Price was said to be around Lexington still.

LATER.—Price commenced an attack on our entrenchments at Lexington on Monday. The fight was very severe all day. Price assailed the works but was repulsed with severe loss. The fight was renewed by Price on Tuesday morning, but feebly.

LEAVENWORTH, Sept. 20.

A citizen of this place who was at Lexington at the time of the surrender of the Federals, states that the troops had been 36 hours without water. The surrender was unconditional. The rebels claim to have 37,000 men, but were badly armed and without organization, as many had joined but a day or two before. Our informant escaped to the town after the surrender.

The office of the Louisville Courier, secession, and arrested the proprietors.

Later from Lexington says the Federals after fighting two days surrendered from want of water. The loss of the rebels was fearful.

It was rumored that an offer of our Government to accept the proposition of the Paris Conference in reference to privateering, had been rejected by European powers.

Gen. Fremont will be removed for general inefficiency.

HOLLOWAY'S OINTMENT AND PILLS.—*Scrofula, Glandular Swellings, Sour Throat.*—The first two are generally constitutional ailments, the last results from accidental causes; both, fortunately, yield with equal facility to the purifying principle contained in Holloway's medicaments. The first action of this admirable Ointment is upon the absorbents and glands, both of which are cleansed, soothed, and regulated by its corrective power. It only requires to be well rubbed into the parts affected three times a day, after due fomentation with moderately warm water. After the friction, flannel should be passed round the disordered parts to secure the open pores against cold or sudden vicissitudes of temperature. In scrofula and glandular diseases, Holloway's Pills should be taken while using his Ointment.

The Great Domestic Revolution.

HARPER TWELVETREES' SOAP POWDER for Washing without Rubbing has created an entire change and thoroughly revolution in the management of the "Family Wash;" and there are no reasons why the old, slovenly and disgusting process should be retained—a process so unnecessary, unscientific, and barbarous as to be considered a great national disgrace! Harper Twelvetrees' Soap Powder saves time, trouble, money, firing, soap, "tongue and temper," and entirely abolishes the "female slavery" of the tub and the present domestic happiness destroying practice of washing. It contains nothing injurious, but is as safe for the frabric and skin as the best soap! Only boil the clothes 20 minutes and hang them up to dry. No RUBBING is required, however dirty the clothes! A Penny Packet is equal to Two Pounds of Soap!! Every Packet bears the signature of the sole Manufacturer, HARPER TWELVETREE, "The Works," Bromley-by-Bow, London, E. the largest Manufacturer of Washing Powder in the world. Sold by all Grocers and Druggists

THE BRITISH COLONIST

TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

Tuesday Morning, Oct. 8, 1861.

British Columbian Officials in our Assembly.

When the present House of Assembly was first organised there were two British Columbian officials who represented constituencies. One, Capt. Cooper, Harbormaster at Esquimalt for British Columbia, was ordered to New Westminster, when he vacated his seat, which has since been filled by Mr. Burnaby. The other official was Mr. Attorney-General Cary. After nearly two years agitation he has resigned his connection with that colony and his mantle has fallen on Mr. Crease. So far then as these two officials are concerned, the principle has been established that the Assembly of Vancouver Island shall be filled only by those whose political connections are confined entirely to this colony, And it is a very correct principle indeed. In fact, it is so correct we want to see it carried out to the fullest extent; we want it to be recognized as an established principle of our colonial policy that British Columbian officials can no more be tolerated here than we would tolerate an official from Washington Territory in our Legislature. Mr. Crease nevertheless stands in the way. He has been appointed Attorney General of British Columbia, and yet he holds his seat in our Assembly as a representative of Victoria District. Now there can be no doubt but that he cannot discharge his public duties to this Colony and British Columbia at one and the same time. If he does his duty by his constituents here, he fails to attend to his Attorney Generalship, and *vice versa*. One of two things, therefore, has got to be done: either resign his seat in the Assembly or his official position. He nor no one else can serve two masters. Besides, it would be doing an injustice to the sister Colony to tolerate or countenance her absent officials here by supporting them in positions of honor or emolument under this Colony. When Mr. Cary was appointed, the Imperial Government never contemplated for a moment that he would take up his quarters in a different Colony from that to which he was sent. He did so; and the consequence has been the greatest dissatisfaction as to the manner in which he has discharged his official duties.

Citizens in every district on Fraser have made continual complaints about the difficulty of transacting public business through the Attorney-General living in another colony. And there can be no doubt but that complaints will be multiplied if Mr. Crease copies the example of his predecessor. The people of British Columbia are justly opposed to the principle of having to come to Victoria whenever they have public business to do which calls for the services of the Attorney-General. No one can blame them. They pay their money for official services to be done at New Westminster and other districts; not at Victoria or elsewhere in this colony. We naturally expect them to make a noise about the new appointment; but they are far more likely to make a much louder noise if the new Attorney-General does not quickly betake himself to the field of his future labors. And if he calls down on his head a little more unpopularity than now presses upon him, he will have no one to thank but himself.

It is now the best part of a month since the news arrived of Mr. Crease's appointment. Why, then, has he not resigned? Does he intend to remain longer in our Assembly to help do up the chores which have earned him his place? We certainly hope some of the members will inquire into the matter, and maintain the spirit of our local Act, which declares that when a member accepts any appointment under "the Government," he *ipso facto* ceases to be a member. If we mistake not, Mr. Crease voted in favor of Major Foster's motion in 1860 to remove all British Columbian officials from the Legislature. If he favored such a principle then, it is but natural we should expect him to carry it out now, by setting the example. But whether he does or does not do so, it is a duty incumbent on the independent members of the Assembly to see that the spirit of our laws is not violated with impunity to serve party purposes.

Additional per Pacific.

A deserter from Munson's Hill, Va., reports the rebel army not larger than 100,000. They have no intention of attacking, but are afraid of the Federal forces.

Two plans matured by Gen. Fremont to capture Pillow and Memphis are reported to be frustrated by orders from Washington.

Prince de Joinville, with Secretary Seward, attended the review of our troops across the Potomac, on the 19th. Gen. McClellan conducted the review in person.

It is thought to be stated with sufficient authority, that so far as the movement of national troops is concerned, there is no probability of a general engagement. However, in case they are attacked, there will be a general and severe battle. Our troops are well prepared to meet any number that may be brought against them, but they are perfecting arrangements for an onward movement, and it is deemed best first to accomplish certain things which may not be effectually done in less than thirty days—matters believed to have no reference to raising men, government being satisfied that it has all recruited.

At half-past eight on the night of the 18th, a train consisting of four passengers, one box and one baggage car, went through a bridge on the Ohio and Mississippi Railroad, near Huron, Ind., 146 miles west of Cincinnati. The cars contained 250 men of Companies E, F, G, and I, of Colonel Turchin's 19th Illinois Regiment. There is an impression that from 40 to 50 were killed and over 100 wounded.

Circumstances seem to indicate that the bridge was tampered with by malicious persons. The bridge is 60 feet span, 10 feet high, and had lately been inspected.

The Union men in both Houses of the Maryland Legislature refused to meet on the morning of the 18th. The Legislature is virtually dead; all the officers being under arrest, prevents the calling of the roll.

The talk of the invasion of Maryland by Gen. Johnson was laughed at.

Russell, of the London *Times*, is coming west on a shooting tour.

General McClellan's body guard is increased to one hundred and fifty-eight, and the uniform changed to his wish.

Should Fremont be superseded, it will not be on account of his proclamation, but because before and since its appearance his energy has not kept pace with his language.

A Cabinet council was held on Fremont's case on the 18th. Quartermaster Meigs made a report, but no conclusion was reached.

At Frankfort, Ky., on the 18th, the Committee on Federal Relations reported substantially as follows:

"Whereas, Confederate troops have invaded Kentucky, and insultingly dictate terms upon which they will retire; therefore, *Resolved*, That Gen. Anderson be invited to take instant charge of this department, and call for a force sufficient to expel the invaders."

This passed the House, and the Senate concurred by a vote of 25 to 9.

The Senate also passed a resolution with only three nays, which proposes to confine the war to the two armies, and discountenance partizan quarrels, as leading to civil war.

The rebels are reported rising again in Northern Missouri. Reports from the South of Missouri say that the rebels assert that they will again have possession of the Hannibal and St. Joseph Railroad within ten days.

Reports from Cairo assert that 11,000 rebels have taken possession of Mayfield, Ky., and that fortifications are going on by Jeff. Thompson's force. Some 22,300 men are at New Madrid.

A resolution was passed by the Senate of Kentucky placing the arms and ammunition of the State under the command of the Federal forces of that State. The House passed the Senate Bill to enlarge the powers of the military board.

The subscription to the National loan at Chicago, on the 19th, amounted to $113,000.

Gov. Curtin of Pennsylvania, issued a proclamation, in accordance with that of the President, ordering that the 26th of September be observed as a day of fasting and prayer

A dispatch has been sent to Gen. Sumner by Gen. Scott, directing him to hold, subject to future orders, not only the volunteers for the overland Mail Service, but also the five regiments (four of infantry and one of Cavalry) subsequently ordered to be raised.

WASHINGTON, Sept. 12.

Adjutant-General Thomas has decided that under no circumstances whatever will soldiers be discharged from the army on the allegation that they were minors when they enlisted.

Serrell was unconditionally discharged from his arrest at Fort Lafayette. He is an agent of the Bank of England, and held abundant proof of his respectability and loyalty at the time he was denounced to the police. Serrell had a long interview with the President this evening. The disclosures and suggestions he made were of such importance that the Secretary of State was sent for to receive them.

WASHINGTON, Sept. 12.

The Government is in receipt of valuable information by the last steamer, relating to the present stock of cotton in the English warehouse, and the prospect of a supply from other sources than rebel States. This information leaves no room to doubt that the Manchester mills will be able to run on full time for one entire year, without touching a pound of the new crop. The information received agreeably surprised the manufacturers, and led them to soften down very much in their demand for a speedy termination of the war.

WASHINGTON, Sept. 14.

The President transmitted the following to Gen. Fremont on the 12th inst., on the subject of Fremont's proclamation:

Assuming your being on the ground, you could better judge of the necessity of your position than I could at this distance. On seeing your proclamation of August 30th, I perceive there is a general objection to it—the particular objection being the clause relative to the confiscation of property and the liberation of slaves, objectionable for its non-conformity to the Act of Congress passed on the 8th of last August. I wrote you expressing the wish that you would modify that clause. Your answer expresses the preference that I should make an order for this modification, which I cheerfully do. It is therefore ordered that said clause be modified, held and construed to conform with, and not transcend, the provisions contained in the Act of Congress entitled "An Act to confiscate all property used for insurrectionary purposes," and that said Act be published at length with this order A. LINCOLN.

The leader of the Canadian revolution in 1837, William Lyon McKenzie, is dead.

EUROPEAN.

Advices from Europe to the 6th of September by the Anglo Saxon state that the political news is unimportant.

The London *Times* in an editorial presents the aspect of American affairs, and argues that enough has transpired to show that the subjugation of the South is next to impossible, and submission is in the highest degree improbable, all incidents of the war thus far being favorable to the South.

It says that the establishment of passports, the suspension of the *habeas corpus* and other kindred measures, all of which are unavoidable—make travelers find themselves more at liberty in Venice than at New York. It doubts whether Americans, after the war has ended, will return to the old form of Government, and thinks that there must betwo Governments; that they will be less Democratic, and that the North bears a resemblance to the last Republican [?].

CALIFORNIA.

The opposition steamers are racing on the Sacramento. Fears of an explosion are entertained.

Recruiting goes on vigorously.

Fast Day was generally observed throughout the State on the 27th ult.

Rev. Dr. Scott has sold his house and lot, and says he will go to Europe. He claims to have been threatened with assassination by anonymous correspondents. The excitement has died out.

The Forrest Theatre, Sacramento, was destroyed by fire on the 26th.

Wm. Cummings, proprietor of the Queen City Hotel, San Francisco, shot a Kanaka cook in the face on the 25th, injuring him severely. He was arrested.

The banking firm of Thos. S. Fiske & Co., Sacramento, suspended payment on the 25th.

GEN. MCCLELLAN'S WAR PREPARATIONS.—We learn from a private source, worthy of credence that Gen. McClellan had 56 batteries of artillery, of six guns each, of various calibre, and about 150,000 men at and near Washington and that his army will be increased to at least 200,000 before the 7th of September. The organization and drill of these troops are going foward with industry and care, and the degree of discipline already apparent in every company, regiment and brigade, is in the highest degree creditable to the officers and the men, and promise great effectiveness in any future operations that may be undertaken against the enemy. The movement of troops and everything connected with the army preparations, are carefully kept from public knowledge, but the facts above given, (to state which can do no harm now, but will greatly public interest), may be relied upon, coming as they do, from one who knows whereof he speaks.—*Chicago Journal of September 1st.*

THE BRITISH COLONIST

Tuesday Morning, Oct. 8, 1861.

LETTER FROM CARIBOO.

[FROM OUR SPECIAL CORRESPONDENT.]

FORKS OF QUESNELLE, Sept. 10, 1861.

EDITOR BRITISH COLONIST:—I have just returned from Swift or Cottonwood River. The main branch of this stream takes its rise in the Bald Mountains, a short distance from Antler, whence it flows in a southwest course towards Quesnelle and afterwards due west into the Fraser. Coarse gold has been found on the upper portion of the river; but the only parties mining on it are located 45 miles from its head, where the gold is fine and found on the surface of bars, as on Fraser. A number of men (mostly Chinese) are working nearer the mouth of Swift, which they have ascended from the Fraser. Some rich spots paying as high as $50 a day are found on the heads of bars, and it is stated that coarse gold diggings are being worked on creeks in the neighborhood. Swift River is a shallow stream, having a swift current and can be easily forded. For miles along the valley the country is covered with forests of burnt timber and the hills are literally carpeted with raspberries and other fruit. Very little attention has been this year bestowed upon Swift River and its immediate neighborhood as the time and energy of miners has been advantageously occupied in dissecting Cariboo; but next year it will stand a chance of being brought more prominently before the public, two new trails to the mines being projected in opposition to the route by the Forks of Quesnelle. Both these will pass through the Swift River country. The first will branch off from the present road at Beaver Lake and come out on Quesnelle, 18 miles below the Lower Ferry and some 26 from the Forks. The head of Williams' Creek is said by the movers in this enterprise to be not more than 40 miles from where the intended trail is to strike Quesnelle, whilst the country between these points contains excellent feed for animals and is easy to traverse. The other trail through Swift River is to connect with the Bentinck Arm coast route, which crosses the Fraser a short distance above the mouth of Quesnelle. Charters for establishing ferries on both these roads have been already granted, so that we are likely next year to have a lively competition bidding for the public traffic. The position of the town at the Forks of Quesnelle as the centre through which the traffic to Cariboo is in future to flow, is considered a very precarious one, and even the contemplated erection of government buildings there fails to restore confidence to the householders. The fact is that notwithstanding the munificent government grant to the Lands and Works of the upper country of $2000 was expended on the road from the Forks, yet the bulk of the packing to Antler has been done by the Lower Ferry trail, on which scarcely a cent has been laid out. The reason why the packers prefer the swamps on the Ferry trail to the comparatively substantial road from the Forks is, that on the former there is plenty of feed for their animals and on the latter none at all, what little nature planted there having been grabbed by speculators. If, however, the existence of Quesnelle City is endangered, the inhabitants are almost indifferent to it, as everything is going on as "merry as a marriage bell," and extensive preparations are being made to prepare for the miners who purpose wintering there and working the North Fork diggings early in the spring. Several new buildings are going up, those of Scott and Mrs. Lawless from New Westminster being among the most prominent ones. Judge Begbie has been here, and after disposing of two or three suits has left for Antler. Among other arrivals I also notice Captains Fitzstubbs and Gompertz, as assistants to the Commissioner.

The latest news from the mines is exciting. Another rich creek has been struck, and a number of miners are tracking the lucky individuals. Williams' Creek is still the richest among the many rich streams in Cariboo. Steele & Co. have beaten the celebrated Abbott claim, having washed up no less than 272 ounces in one day (three men throwing into sluices). $14,000 has been offered and refused for two interests in this company, the members of which will probably realize $200,000 a piece before the season is over. Good bench diggings have also been found on the ground adjoining the cañon claims on Williams' Creek. Last Chance Gulch has turned out very good; not a claim on it but paid from $20 to 2 ounces, whilst some ground paid as high as $150 a day. The Van Winkle diggings are also yielding "big things."

Several lucky individuals have already left for below, among others Willoughby from Lowhee Gulch with $11,000; two Patterson, O'Rouke, Miller, Usher and Davies, with sums varying from $3000 to $7000. Two packers named Fellows and Way are said to have left here a few days ago with $40,000 in gold. They are bound to Lower California to bring through mules next year. The largest sum taken down by any one individual was 194 lbs. weight—a regular mule load; and curious enough, no one knew about his having a good claim. The party in question told an old acquaintance on the road where he weighed his nuggets that he had been mining on a small gulch where there was scarcely a tom head of water, and that no one knew the whereabouts of it, nor would they until he had brought back some friends from California.

An early winter is expected in this part of British Columbia, as the weather has been for some time past very fine, with slight frosts at night. Mining operations will probably be brought to a close by the frost about the second week in October, and by that time most of the men will be on their way down to the Lillooet, Victoria, and California. Out of the 1200 miners in Cariboo 400 will doubtless remain in the Upper country and the same number at the Lillooet. More than 150 men out of the above number will have cleared from $1000 to $20,000 during the season, whilst a great number have made good wages and secured valuable claims for next year. De Shields Ranch at Beaver Lake has been sold to Tow and Kendall for $5,000 and a restaurant and house of accommodation for travellers will be opened this fall under the superintendence of Mr. Tow. Sellers and Dunleavy have been doing a first rate business on their ranch at the same place during the summer. The Mission Ranch at Williams' Lake was sold the other day for $15,000, to Messrs. Woodward & Hennefield. The late proprietor (Mr. Davidson) owing to ill health is obliged to leave and try a more southern climate. The crops of grain alone on the above ranch are estimated of the value of $12,000; they having turned out better than the most sanguine believer in the farming capabilities of the country could have expected. The purchase is considered a remarkably cheap one. For the next two or three years, farming in British Columbia will be a most remunerative pursuit and a great impetus has lately been given to it by the high prices which barley and oats command in the mining districts. (The former at retail is worth from 45 to 50 cents per lb.). The experiments which have been tried during the last two years, prove that the lowlands in British Columbia will yield large crops of grain, and as a stock-raising country it cannot be surpassed. The talk about the rigorous climate acting injuriously on the crop is perfectly absurd, as the Hudson Bay Company obtain 30 kegs of wheat to the acre at Stuart's Lake, some 70 miles further north than Cariboo. Several ranches have lately been started along the river and Brigade Trails and the colony bids fair to be soon settled by a large agricultural population. The Oregonians who came through this summer with stock, have literally coined money, and the number of men who intend going into this line of business next Spring is perfectly astonishing; every other man with money announces his intention to go to Oregon for pack horses and cattle. Two large trains arrived the other day from the Dalles. As the introduction of stock into the country will ultimately prove of great benefit, it is important that no restrictions should be placed in the way of persons bringing it across the frontier, and that the ruling powers will see the policy of taking off the head duty at present imposed—$1 50 per head. The Gold Escort has arrived at Williams' Lake on its way up. I am informed by a half breed lately from the Thompson that a party of white men have struck good diggings on the South Fork of that river, 60 miles above the Kamloops. They were making one ounce a day with rockers, and had driven back some Chinamen who had come up from the lower part of the river. There is every likelihood that a number of miners will proceed next spring to prospect the head waters of the Thompson. I purpose returning in a few days to Victoria by the river trail.

ARGUS.

INQUEST.—Yesterday Coroner Dickson summoned a jury to hold an inquest on the body of Pierre Jolibois, who was crushed to death beneath the wheels of a wagon on Saturday last, near Cloverdale Farm. One witness was examined who testified that he was driving a wagon on the Saanich road when deceased approached and asked to be allowed to ride. The horses were unruly, and while deceased was about to get into the vehicle he slipped and fell beneath the wheels and received fatal injuries. Owing to the arrival of the mail steamer, further inquiry was postponed until Wednesday at 9 o'clock.

THE "PACIFIC."—This old acquaintance arrived yesterday looking none the worse for her submersion in the waters of Columbia River three months ago. She brought 41 passengers and 300 tons of general merchandise. She will leave for San Francisco *via* Portland at 9 o'clock this morning and will carry down a large number of passengers and a heavy shipment of gold dust.

BRIDGING THE FRASER.—Government proposes erecting a bridge across the Fraser at Hell's Gate in the Big Canon, some distance above the Spuzzem ferry. A party of Sappers and Miners have gone to examine the locality and report upon the feasibility of the project.

THE "TRUE BRITON."—During the gale of Sunday night the bark True Briton, anchored in Esquimalt harbor, dragged her anchors and nearly came in collision with H. M. S. Mutine. The blue-jackets were summoned and soon set matters right.

A CANDIDATE.—It is currently reported that D. B. Ring, Esq., intends to offer himself as a candidate for the representation of Victoria District, which it is expected will be shortly vacant by the resignation of Mr. Crease.

POSTPONED.—The further hearing in the theatre assault case has been postponed until Monday next at 10 o'clock, a. m. Additional witnesses have been subpœned for the prosecution.

☞ The steamer Enterprise is due this morning, although the severe gale of yesterday may have prevented her from leaving Olympia at the usual hour.

☞ The steamer Otter will leave at 7 o'clock, to-morrow morning for New Westminster.

NO HOUSE.—The House of Assembly did not meet yesterday on account of the arrival of the mail steamer.

THANKS.—To S. A. Moody of the Victoria News Depot for files of late papers received by the Pacific.

☞ The sale of the True Briton, advertised to come off yesterday by Mr. Cochrane, was postponed.

UP.—The barks Christiana Carnall, Tolo, and Ork are up for this port at San Francisco.

THE WAGON ROADS ON THE DOUGLAS ROUTE.—The contractors who are engaged completing the road on the Pemberton portage are getting along with the work as quickly as possible, and several sub-contracts have been given out. Mr. Munro has, owing to the difficulty experienced in obtaining white labor, been obliged to employ Chinamen on a portion of the work. This has caused great dissatisfaction among the other men employed, and it is understood that so soon as enough white men can be had the Celestials will have to quit. Wages are from $40 to $50 a month, and between 70 and 80 men are at work. The cut-off on the Douglas portage, avoiding the worst hill on the route, is now open for traffic. It is considered to be the best piece of work in that line as yet done in the Colony, and reflects great credit on the skill of Sergeant Bridgeman, of the Royal Engineers, under whose superintendence it has been constructed.

THE ACCIDENT TO THE "CAROLENA."—The accident to the schooner Carolena, Capt. Jones, on Sunday evening, briefly noticed by us yesterday, was more serious than we at first imagined. She was on her way to Esquimalt to await the arrival of the Pacific, and when some distance beyond McAuley's Point, was struck by the gale and driven ashore. She soon afterwards filled and went down. Capt. Jones, and his crew of five Indians swam ashore. Yesterday morning Admiral Maitland sent two boats from the Topaze to the spot, and the sailors cut away the masts and sails and by evening had succeeded in raising the vessel and anchored her in a place of safety. She needs repairs which will require two or three weeks, and will then be as good as new.

☞ No police Court was held yesterday Cause, no cases.

A Card from John Butts.

VICTORIA, V. I., October 8, 1861.

TO THE PEOPLE OF VICTORIA.—Having been in jail for the last 12 months, and wishing to reform, I purpose cleaning the streets providing I can get sufficient to pay the expense. Most of the merchants in Yates street have generously responded to my call and have kindly received me.

I have left off drinking liquor, and also selling it to Indians, and if a few will kindly come forward and assist me, they will find no longer a nuisance, but a useful member of society in

Yours, gratefully,
JOHN BUTTS.

NOTICE TO MARINERS.

LIGHT HOUSE
ON
FISGARD ISLAND, ESQUIMALT HARBOR, VANCOUVER ISLAND.

COLONIAL SECRETARY'S OFFICE,
Victoria, 1st December, 1860.

NOTICE IS HEREBY GIVEN, THAT A Light is exhibited in the Light House recently erected on the summit of Fisgard Island.

The Light is fixed, and of the fourth order of Fresnel; Shows bright when bearing from N. 2 W. to N. 60 W.
" red " " N. 60 W. to S. 6 E.
Is elevated 70 feet above mean High Water Level, and may be seen in clear weather 10 miles.
(The bearings are magnetic.)
The structure consists of a keeper's dwelling of brick, with a tower of the same material whitewashed, surmounted by an iron lantern painted red.

It is situated in Latitude..... 48° 25' 38" N.
" Longitude..... 123° 27' 10" W.

The following directions for Esquimalt and Victoria, compiled by Capt. Richards, are herewith published for general information.

By command of His Excellency the Governor,
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

DIRECTIONS FOR ESQUIMALT AND VICTORIA.

The Light Tower on the Race Rocks is completed, and the light, (which is a flashing one every ten seconds,) will probably be exhibited in the course of a few weeks. The height of the lantern above the sea is 118 feet. The Tower can be distinctly seen at the distance of 12 miles, and vessels should round it at a distance of from half a mile to a mile; the most off lying danger is a rocky patch of 5 feet, lying S. E. by E., distance between 3 and 4 cables from the Great Race.

On rounding the Race Islands, Fisgard Island Light will be seen, and should be steered for, on a bearing N. W., which will lead clear of the reef, extending a short precipice off Albert Head.

The precautions to be observed are, to keep the bright light in full view; if a vessel gets too far to the Westward it will appear dim, and shortly become entirely shaded, when she should immediately steer out to the Eastward, until it again shows bright.

This precaution is especially necessary on account of the tides, which, during spring, run as much as 6 knots in the neighborhood of the Race Rocks; the ebb runs almost in a direct line from Haro Reef to the Rocks, and sets right across them and the shore; there also the race is in the vicinity, dangerous for boats or small craft.

When above Albert Head, and desiring to anchor in Royal Roads, a vessel should bring the Light to bear N. by W., when she will have 10 fathoms, good holding ground; or, if desired, she may stand to the Westward until the light becomes shaded green, when she should *immediately* anchor.

Entering Esquimalt Harbor, the light should be left from one to two cables lengths on the port hand, and when it bears S. by W. at a convenient distance, a ship may anchor in 7 fathoms, or stand into Constance Cove if preferred.

When the light bears N. W. by W. in entering it changes from bright to red, and shows the latter color within the harbor.

Entering Esquimalt from the Eastward, the light should not be steered for, until it shows bright which is the mark for clearing Brotchy's Ledge, and the Scrogg Rocks; when the light changes from red to bright, it leads about half a cable clear of the Scrogg Rocks.

The course for the entrance of Victoria Harbor, after rounding the Race Light House, is N. N. E., (allowance for tides), and when Fisgard Island Light changes from bright to red, a vessel will be scarcely a mile from the shore.

Ships, however, above the size of coasters, unless acquainted with the neighborhood, are recommended not to run for Victoria Harbor at night, when they would not be able to enter; but rather to anchor in Royal Roads for daylight; with Southeasterly winds and stormy weather, a ship should invariably run into Esquimalt Harbor, which she can do with great facility by the assistance of the light on Fisgard Island.

GEO. HENRY RICHARDS,
Captain H. M. Surveying Ship Plumper.

"BAD FOR THE COO."—When George Stephenson, the celebrated Scotch engineer, had completed his model of a locomotive, he presented himself before the British Parliament, and asked for the attention and support of that body. The grave M. P.'s looking sneeringly at his invention, asked, "So you have made a carriage to run only by steam—have you?"

"Yes, my lairds."

"And you expect your carriage to run on parallel rails, so that it can't go off, do you?"

"Yes, my lairds."

"Well, now, Mr. Stephenson, let us show how absurd your claim is. Suppose when your carriage is running upon these rails at the rate of 20 or 30 miles an hour, (if you are extravagant enough to even suppose that such a thing is possible,) a cow should get in its way. You can't turn out for her—what then?"

"Then, 'twill be bad for the coo, my lairds."

Keating's Cough Lozenges

A SAFE AND CERTAIN REMEDY for Coughs, Colds, Hoarseness, and other Affections of the Throat and Chest. In Incipient Consumption, Asthma, and Winter Cough they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child; while the public speaker and the professional singer will find them invaluable in allaying the hoarseness and irritation incident to vocal exertion, and also a powerful auxiliary in the production of melodious enunciation.

Prepared and sold in Boxes and Tins, of various sizes, by Thomas Keating, Chemist, etc., No. 79, St. Paul's Church Yard, London. Sold retail by all Druggists and Patent Medicine venders in the world.

N. B.—To prevent spurious imitations, please to observe that the words "Keating's Cough Lozenges" are engraved on the Government Stamp of each box, without which none are genuine.

CURE OF ASTHMA OF SEVERAL YEARS' STANDING.

Cainscross, near Stroud, Gloucestershire.

SIR,—Having been troubled with Asthma for several years, I could find no relief from any medicine whatever, until I was induced about two years ago to try a Box of your valuable Lozenges, and found such relief from them that I am determined for the future never to be without a box of them in the house, and will do all in my power to recommend them to my friends.

If you consider the above testimonial of any advantage, you are quite at liberty to make what use of it you please.

I am, Sir, your most obliged servant,
W. J. TRIGG.

Worcestershire Sauce.

PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce, and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 1857.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

EXTENSIVE FRAUDS.

L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of the "WORCESTERSHIRE SAUCE," the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. FORGED, they have deemed it their duty to caution the public, and to request purchasers to see that the names of LEA & PERRINS are upon the Wrapper, Lable, Stopper and Bottle.

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in the various parts of the world to advise them of such infringements.

CAUTION AGAINST COUNTERFEITS.

The high repute and extensive sale of Messrs. Perry's Medicines having induced many unprincipled individuals to foist upon the public illicit and spurious compositions of their own preparation, Messrs. Perry beg to inform persons purchasing their medicines, that none are genuine unless the underneath signature of R. & L. PERRY & Co. is affixed on the out-side of each wrapper of the CORDIAL BALM OF SYRIACUM and DERMATYLLA ESSENCE, and their name, address, and also that of the medicine, is blown on the bottle, to imitate which is felony; and, in addition, all Messrs. Perry's medicines sold in Australia, India, China, and all other parts of the world, will be protected by a patent capsule affixed to each bottle, bearing their name and address in full; and every packet and bottle must be accompanied by a copy of the pamphlet, entitled "Extracts from the 'Silent Friend,'" which is included in the price charged for the medicine.

R. L. Perry & Co.

SURGEONS.

Messrs. R. & L. PERRY & Co. are only to be consulted at their residence, No. 19, Berners street, Oxford street, London, as they never, under any circumstances, travel either at home or abroad, and they hereby caution the public against any person using their names.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

PERRY'S CORDIAL BALM OF SYRIACUM.—Established nearly a century, and known throughout the world as THE GREATEST REGENERATOR; a never-failing remedy for the loss of manly power, restores the impaired powers of life when exhausted by the follies of youth, inability, or old age. It is a certain cure in all cases of extreme nervous debility produced by early imprudence, and various other causes, spermatorrhœa, exhaustion, incapacity for society, study, or business, indigestion, shortness of breath, dimness of sight, giddiness, cholic, bowel and bilious diver complaints, constipation and relaxation, dysentery, asthma, jaundice, fever, lumbago, gout, rheumatism, coughs, colds, sore, weak, and ulcerated throats, nervousness, hysteria, pains in the limbs, interrupted circulation, the doloureux, restlessness at night, all chronic diseases, and all female complaints. This invaluable medicine is the most wonderful triumph of art over nature, and is adapted for both sexes. It has the effect of restoring and increasing the natural vigor of those who are suffering from prostration and languor produced by sojourning in the colonies or in hot climates. Thousands have been restored to health and vigour by its use, as sworn to on oath before the Right Hon. Lord Mayor of London, and the following Aldermen—Sir Peter Laurie, Kt., Sir James Duke, Bart., M. P., Sir John Musgrove, Bart., Sir George Carroll, Kt., Sir Robert Walter Carden, Kt., David William Wire, Esq., William Cubitt, Esq., M. P., Sir Henry Muggeridge, Kt., and others.

Price 11s. per bottle, or four quantities in one for 33s., which saves 11s.; and in 25 bottles, effecting a saving of £112s.

Perry's Concentrated Detersive Essence, a remedy for any of the forms of Secondary Symptoms, and for purifying the system from contaminations. It is recommended for all those diseases for which mercury, &c., are not only employed in vain, but too often to the utter ruin of health. Its action is purely detersive, and its beneficial influence on the system is undeniable. Price 11s. and 33s. per bottle, also a saving of 11s.

Perry's Patent Concentrated Essence of Copaiba & Cubeb Sugar-Coated Globules composed of rare and valuable gums, and also extract of copaiba and cubebs, for the cure of obstinate gleet, gonorrhœa, and all urethral affections, sedimentary and high-colored secretions, dorsal pains and renal irritations in either sex, causing immediate relief by subduing inflammatory action, perfectly tasteless, still retaining at the same time all the curative powers of these valuable preparations.

In all cases of Gonorrhœa, Gleet, Stricture, &c., a single trial will prove the efficacy of this unequalled remedy: as it at once acts up n the kidneys, bladder, and the urino-genital organs, restoring them to their healthy state. Price 11s and 33s per box.

Health Depends Upon Pure Blood.

PERRY'S PURIFYING SPECIFIC PILLS,

an infallible cure for all diseases of the skin, such as scurvy, scrofula, ulcers, boils, blotches, pimples on the face and body, &c. Price 11s. and 33s per box.

On Nervousness, Relaxation & Exhaustion.

New Edition, enlarged to 190 pages, illustrated by 100 Anatomical Engravings on Steel, just published, price 2s. 6d.

THE SILENT FRIEND.

A Medical Work on the Nature, Treatment, and Cure of nervous and physical debility, exhaustion, spermatorrhœa, and all urino-genital diseases of the nervous system, and other diseases incidental to both sexes, producing a degeneracy of mental and bodily strength, terminating in total debility and incapacity; showing why these diseases so often appear incurable, when in reality they can be *effectually removed by the most simple means.*

Also to be had from all Agents in all parts of the world,

Extracts from the Silent Friend,

Price 6d, which contains directions for the guidance of patients, and is included in the price charged for the medicine.

DRUGS & MEDICINES.

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved, and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"From the Kilrush Advertiser, June 2nd, 1860."

BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the pores, acts in unison with the Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.

This invaluable Ointment was never known to fail in the cure of any wound, any sore, or any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Moschetoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scalds	Elephantiasis	Rheumatism	Wounds
			Yaws
			Sore Nipples

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n13
